## Assistante de direction - chargée de communication

I am responsive and knows how to organize action in a very short time. I know how to express both orally and in writing. I'm creative and organized, two qualities sometimes contradictory and yet, in my case further. I am frank, direct, optimistic and sincere. I can adapt as needed, hostility as usability. I'm curious to learn and enjoy life because if I'm bored, I'm in my restrictive trade. I hate perfection because it hides a lot more pressure and failures but i find the more sexy Intelligence of Heart! Think and Be different and will be interested me! I love research challenges and compromises, but hate lies and selfish goals. I know how to invest in what I like and i go always to the end de mes désirs , and sometimes want to travel too often but in finale to open my mind and heart at all diversity and communities have make me a better person . Specialties: purchasing, branding and identity products, media planning, business management, labor law and animals and humans rights.
